PENTATHLON TOUCH

Polymerization unit

Electronic polymerization unit with great capabilities, equipped with a touch screen panel with a user-friendly interface for an easy and simplified use. A product that respects the tradition of solidity, reliability and quality. By requesting the remote management module, the device allows the connection via the ethernet port to the company informatic system.

EQUIPMENT

- Large chamber (205 mm diameter, 130 mm height); it can contain a big articulator
- Basket bowl and tweezer holder
- Timer
- Safety system that prevents the opening when the device is under pressure
- Simple and intuitive man-machine interface
- Language selector
- Touch screen that displays:
  - Cycle start time
  - Pressure
  - Temperature
  - Maintenance
  - Cooling
  - Water/air discharge
- 10 programmable cycles
- Memorization of the last 30 programs
- Reporting faults and anomalies

USES

- Polymerization of any type of resin
- Hygroscopic bath
- Pressure hygroscopic bath
- Pressure pot
- Resin cooking in slow-polymerization muffle
- Removing wax from the cylinders
- Plaster coating press

REMOTE CONTROL KIT (OPTIONAL ON REQUEST)

Remote management module with control via PLC that allows to:

- Store the data of the cycles performed:
  - Quantity of processed batches
  - Production times
  - Cycle settings
- Interconnect the device to the company network via LAN or WI-FI
- Activate remote assistance by connecting to the company IT system
