# ECO-RACK

## *Residual material collection rack*

The cabinet has been designed to have a base that allows the filtration of washing water.
The drop course can have 4 levels:

- Removable basket in the top drawer
- Coarse filter as bottom of the first drawer
- Intermediate filter in the second drawer
- Ultrafine filter in the third drawer.

During the filtration cycle, a reduction of the microparticles present in the water is obtained.
The discharge of waste water can be directed to public sewers in compliance with the legislation in force in the country of installation.

**REMOVABLE BASKET**

Allows to quickly remove larger pieces of support

**FIRST DRAWER**

With basket for coarse collection. It can mount an intermediate metal mesh

**SECOND DRAWER**

With intermediate metal mesh and coarse filter fabric

**THIRD DRAWER**

With disposable filter fabric. Type: medium or fine
