## MINIVAPOR HARMONY

### Steam generator

Steam generator that works at 6 bars and need for connection to the water mains.

In addition to the gun with water, steam and water-steam mixture, it is equipped with a fixed pipe for saturated steam outlet. Practical, solid and compact, this device is the ideal ally for dental laboratories.

**PILOT LIGHTS**

- The light on the left indicates that the heating element is working
- The central light indicates the intervention of the thermostat
- The light on the right indicates that the electric pump is working

**PRESSURE GAUGE**

It indicates the pressure in the boiler

**ON/OFF LIGHT SWITCH**

It allows the device to be switched on and off. The green light indicates that the device is in operation

**FIXED NOZZLE**

For saturated steam delivery. It is activated through the top left button or the pedal

**GUN CONTROL BUTTONS**

- The left button activated the gun steam
- The right button activates the gun water
- Pressing both switches allows the outlet of water-steam mixture from the gun

**GUN**

- With safety lock
- Can be positioned on either side L/R
- Ergonomic
- Special heat-resistant material
