

EFFEGI BREGA®

MINIVAPOR MS TOUCH

Steam generator

The top of the range of the FG Line. This device has the ability to set the operating pressure up to 8 bar. In addition to the spray gun and the fixed nozzle for dry steam, it is equipped with another fixed nozzle for dispensing decalcified water.

The touch screen makes its use easy and intuitive. The device software is designed to count the liters consumed and signal the need to regenerate the water softener resins.

DRY STEAM

- Decontamination of bridges
- Ceramic cleaning
- Foot control pedal in compliance with safety standards

GUN

- It delivers: water, steam and water/steam mixture
- Practical with thermal insulation
- Ergonomic and easy to use
- Trigger to activate the gun

ADJUSTABLE PRESSURE

Adjustable operating pressure from 2 to 8 bar, as needed

PURIFIED WATER

- Water dispenser for:
 - Coating mixture
 - Gypsum mixture
 - Cleaning of ceramic utensils
 - Ceramic cleaning
- Foot control pedal in compliance with safety standards

ELECTRIC LITRE-COUNTER

The display indicates the exact quantity of water, in litres, used for the regeneration cycle. This way, the decalcified water level can be topped up promptly to avoid the formation of limescale deposits
